

CEDEP.FR

Join our unique, humanist, collaborative learning community, that understands the value of active participation and open exchange and leveraging collective intelligence.

Discover our leadership development programmes rooted in the real world and driven by the real-life challenges of our member companies. Our pedagogy is based on dynamic, innovative, relevant, highly participative and actionable learning.

In our open or custom programmes, we always challenge conventions and assumptions, while inspiring new and empowering thinking from the inside out, building internal capacity and ownership. Our independence means we are free to bring together experts and faculty from many of the world's top business schools.

In an ever-changing and uncertain world, we choose to work together to make the world a better place for us all.

If you share the same values and believe in a humanist philosophy and approach, participate in our open programmes or co-create a highly-personalised custom program.

Join our independent and non-profit Executive Education Club, co-run by our member companies from diverse and non-competitive industries.

CEDEP where minds meet, grow and succeed together!

CEDEP was created 50 years ago by pioneering entrepreneurs as the first membership organisation dedicated to executive education.

We are now an independent, not-for-profit club with over 20 international members and are also open to both individuals and companies beyond our membership.
